

Executive Function: The Brain's Air Traffic Control System

The Learning Disabilities Association of Iowa will be presenting a series of 4 FREE webinars on Executive Function topics in October to celebrate LD Month!

- Special education and general education teachers, parents, and all professionals working with elementary to middle school children are encouraged to attend. The strategies shared support all students and are adaptable for any age or level of functioning.
- Participants will enhance their understanding and apply strategies to support Executive Function in Routines, Working Memory, Organization, Goal Setting, Self-Talk, and Self-Monitoring.
- Certificates of attendance will be provided upon request to info@ldaiowa.org
